Lead Broker Blueprint by Lorenzo Marietti

Module 8 deliverable

Resource Library

Every link, source, conference, podcast, and book referenced across all 8 modules

How to use this library

Organized into eight sections matching common operator needs: conferences & events, trade publications, podcasts, communities, key vendors, law firms publishing on lead-gen regulation, regulators and primary sources, and books/longer-form resources.

URLs are not embedded as live links in this PDF (they're written out as plain text so you can verify before clicking). Verify any URL before relying on it; sites move, brands change hands.

Maintenance and feedback

This Resource Library will be updated quarterly alongside the rest of the course. Sites move, brands change hands, podcasts wind down, and new vendors emerge. Verify URLs before relying on them; the URL list at v1.0 was current as of May 2026.

If you find a stale link, a missing resource, or a substantively wrong description, please flag it via the feedback channel referenced in Module 8.6. The quarterly refresh is built around exactly this kind of input.
